

ACCU-CHEK® Combo

Roche

Why choose the **ACCU-CHEK® Combo** Insulin Management System?

Hand held Remote Control & Blood Glucose Meter

- Easy, discreet and convenient insulin management
- No need touch pump or remove from clothing for daily use
- Parents can control pump without interrupting sleep or playtime
- Using Accu-Check Aviva test strips
- Range of colours available

3 minute basal pulse delivery

- Closely mimics the physiology of pancreas
- Confidence of receiving insulin within 3 minutes of re-connecting
- Smallest basal rate increments of 0.01u/hr starting from 0.05 u/hr

Easy to use Bolus Advisor

- Test blood glucose level, enter carbohydrates and deliver bolus in under 50 seconds
- Reduces risk of mathematical errors

Rapid Response Occlusion Detection

- Rapid blockage detection – on average 45 minutes
- For added reassurance & reduces risk of hyperglycaemia

One Stop Electronic Diary

- Stores full testing and bolus history
- Immediate access to accurate information so patients can act on their results when required
- Insulin and blood glucose data displayed in table, graph and pie chart giving patients a quick, overall view of their self management results.

Customer Careline

- Only company to offer 24 hour, 365 day UK Careline

Delivery

- Free delivery on pump / consumables on average within 48 hours
